

Java EE Architecture Shoot-Out

Riyad Kalla

Product Services Manager
Genuitec

Java EE or Other?

- Not easy to answer anymore
- Alternative techs offer excellent solutions

Real Answer:

- Always start with a list of your requirements (performance, deployment and scaling) then evaluate the technologies and apply the ones you need.

Truth:

- These frameworks have grown up so much that now adays they all provide excellent solutions for app development.

Demo Agenda

- Existing Web 2.0 Facelets/ICEfaces App
- Enhance it using Spring IOC (Decoupling)
- Enhance it using JPA (POJO/DAO)

Demo

Switch to MyEclipse

Discussion

What technologies are you deploying with your apps?

- J2EE 1.4, Java EE 5?
- Struts 1.x, Struts 2.x, JSF, Facelets, Wicket... <20 more>
- Spring, Google Guice, PicoContainer?
- Hibernate, JPA, iBatis, JDBC?

What tools are you using with a lot of success?

Thank You for Coming!
